SUMMARY

Aspiring Information Technology student currently in the final year of a Diploma in IT at Belgium Campus iTVersity. I am actively seeking an internship opportunity in the IT field. With practical experience in developing applications in C# and full stack development using React, HTML, and CSS, as well as UI/UX design with Figma, I bring a strong foundation in software development, computer systems, and databases. I am confident in my problem-solving ability, adaptable to new environments, and comfortable working with Microsoft Office tools and SQL databases.
